## Total Convenience, Total Performance

Quick, quiet and impressively powerful, the professional cordless range from STIHL allows for 100% mobility and convenience with a matchless delivery. New additions the HSA 94 T (for trimming) and HSA 94 R (for pruning) are available in various models with different bar lengths to suit individual needs. These extremely high performance hedge trimmers offer precision cutting and a constant stroke rate even under maximum workload. The rotating multi-function handle, 3-setting stroke rate and double-sided

cutting blade in the pruning version cut even robust growth down to size. And if managing tough grass over a wide area is required, the FSA 130 cordless brushcutter has a 260mm diameter cutting circle, three power settings and a comfortable-to-operate bike handle for a smoothly professional result. Get these low noise, zero emission top performers on your side this summer.

*Like any premium item, STIHL products are only available at specialised dealers nationwide, for expert advice and superior after-sales service.*
